## RINGS

To treat yourself or as a gift, please refer to the size guide below to determine the ring size that best fits you.

### Some preliminary advice to determinate the size of your finger

1. Measure the size of your finger with a piece of string,
2. Mark the meeting point of the string with a pen,
3. Measure the length of the string in millimeters,
4. Record the length of the string in the table below.

Or you can use a tape measure and transfer the millimeters directly in the table below.

### Tips

The size of the fingers varies depending on the time of day and the weather. For example, swollen fingers can mislead the size of your finger.

So measure your finger size **several times** a day.
